

# The European Biofuels Technology Platform: The Way Forward

- Mission: *“Contribute to the development of cost-competitive world-class biofuels technologies, to the creation of a healthy biofuels industry and to accelerate the deployment of sustainable biofuels in the European Union through a process of **guidance, prioritisation and promotion of research, development and demonstration.**”*

- Key achievements since June 2006:
  - “guidance & prioritisation” activities → SRA/SDD
  - “promotion” activities:
    - → website
    - → 1st Stakeholder Plenary meeting
- New expectations → ***facilitating the implementation of the SRA/SDD***

# BiofuelsTP

## The Way Forward

- **Mapping of main ongoing biofuels R&D projects vis-a-vis the Biofuels Technology Platform Strategic Research Agenda**
- **Focussing the Strategic Research Agenda on most critical priorities**
  - **Developing a sustainability based set of criteria**
  - **Applying them to the SRA – feedstocks, conversion processes and end use topics**
- **Applying the sustainability based screening tool to contribute shaping the Bio-energy Europe Initiative (European Industrial Initiatives under SET-Plan, ref. COM (2007)723, 22.11.07)**
- **Developing communication activities: thematic workshops, website etc.**
- **Strengthening collaboration with other Technology Platforms and with Member States**
- **Reinforcing involvement of biofuels stakeholders, in achieving the mission of the platform**
